Larger stage preferred

MONITORING

4 wedges minimum

5 preferred; independent mixes

FOH INPUTS

14 minimum

Additional drum mics optional

KEYBOARDS

3 mono outputs

ATRV2 provides keyboard DIs

DRUMS

5-piece kit

Kick + snare + 2 overheads minimum

01

PRODUCTION ADVANCE

ATRV2 can provide amps, DI boxes, stands, cables and other necessary equipment when needed. Please confirm any house limitations or unavailable backline in advance so the band can bring the required gear.

POWER

120V AC required at Rena (front left), Raul (front right), and Hugo (back right).

MONITORING

Preferred setup is five wedges: three front and two back. Four wedges is the minimum acceptable configuration.

KEYS

Hugo uses Korg Triton, Roland Fantom, and Roland Juno. Three mono outputs to FOH; ATRV2 provides DI boxes.

GUITARS

Rena requires a performance amp or a production-supplied microphone for his amp. Raul provides his Boss GX-100.

ACCORDION

Steve uses his own wireless system and requires one FOH input channel.

7	Hugo keys 1 - Korg Triton	DI - mono	ATRV2 provides DI
8	Hugo keys 2 - Roland Fantom	DI - mono	ATRV2 provides DI
9	Hugo keys 3 - Roland Juno	DI - mono	ATRV2 provides DI
10	Steve accordion wireless	Mic input	Steve provides wireless system
11	Kick	Mic	Minimum drum package
12	Snare	Mic	Minimum drum package
13	Overhead L	Mic	Minimum drum package
14	Overhead R	Mic	Minimum drum package

MONITORING

- Preferred: 5 wedges / 5 independent mixes
- M1 Rena | M2 Lalo | M3 Raul
- M4 Cesar (drums) | M5 Hugo (keys)
- Minimum: 4 wedges (2 front shared + 2 back)
- Independent monitor mixes recommended
- Keys and vocals prominent in all relevant mixes

POWER

- Rena - 120V AC (front left)
- Raul - 120V AC (front right)
- Hugo - 120V AC (back right)

BACKLINE / PRODUCTION NOTES

- ATRV2 provides DI boxes for all keyboard outputs.
- Steve uses his own wireless system; one FOH input required.
- Rena requires a performance amp. If unavailable, production should provide an amp mic.
- Raul provides his own vocal microphone and Boss GX-100.
- Standard 5-piece drum kit with cymbals preferred.
- If ATRV2 provides the Markbass stack, one XLR to FOH is required.
- ATRV2 can bring amps, stands, cables and other necessary equipment with advance notice.
- Additional drum miking and talkback may be added by production as needed.

ADVANCE NOTE

Please advise ATRV2 in advance if any listed requirement cannot be provided so substitutions can be coordinated.
